The Metabolic & Bariatric Surgery Center

PRESENTS THE 1st ANNUAL

Erlanger Metabolic Symposium for Healthcare Professionals

Friday, Oct. 20, 2017

The Westin Chattanooga
801 Pine St.
Chattanooga, TN 37402

erlanger.org/milestones
Please join us for the first annual Metabolic Symposium on October 20, 2017 at The Westin Chattanooga. This inaugural event will offer healthcare professionals in the Chattanooga region an opportunity to network with other professionals that have a passion for treating individuals with the disease of obesity and obesity-related health complications. The half-day learning event is focused on the latest trends in treating metabolic patients and is followed by a reception and the 3rd annual Celebrating Metabolic Milestones Dinner which showcases the behind the scenes look into the Erlanger Metabolic and Bariatric Surgery Center and also features patient success stories. This unique event gives pre- and post-bariatric surgery patients and their families members an opportunity to visit with the medical team from all steps in their journey.

Speakers

Christopher Sanborn, MD, FACS, FASMBS
Medical Director, Erlanger Metabolic & Bariatric Surgery Center
Dr. Sanborn is board certified in general surgery. He is a Fellow of the American College of Surgeons and the American Society for Metabolic and Bariatric Surgery.

Jennifer Dooley, MD
Internal Medicine, University of Tennessee College of Medicine Chattanooga
Program Director, Internal Medicine Residency
Dr. Dooley is a board-certified Internal Medicine physician who has been treating inpatients and outpatients at Erlanger for over 10 years. Her focus is adult medical weight management.

Arslan Kahloon, MD
Gastroenterologist, Academic Gastroenterology
Dr. Kahloon is board certified in gastroenterology. He completed his fellowship in Gastroenterology and Hepatology from Indiana University School of Medicine.
Learning Objectives

Treating Obesity in 2017
An update on the latest research and trends in the medical and surgical treatment of obesity.

Pharmacological Treatment of Obesity
The impact of pharmaceuticals on the disease of obesity focusing on obesogenic medications commonly used in healthcare. Highlights will include alternatives and medication now available to treat obesity.

NASH Update
NASH is a common co-morbidity of chronic obesity. Dr. Kahloon will review current research and treatment options.

Panel Discussion
Open discussion with our three speakers. Attendees are encouraged to bring questions and interesting case studies to share.
